

THE GREAT SERPENT MOUND SACRED MYSTERY RITE

Jaia Dev Ascension Network presents an opportunity to participate in an event designed to link the human energy field with that of the Great Serpent Mound near Peebles, Ohio, to usher in a flood of coded light essential for the evolution of consciousness. This event culminates a series of "energy upgrades" that began about a year ago at Trinity Point in Churchville, VA. A series of three sacred ceremonial events awakened the sleeping stargate there and prepared Trinity Point for its mission as a receiving and broadcast station for sacred light codes. These light codes are essential inserts to be anchored in the Earth's body for her co-Ascension with humankind from our fallen continuum time frame to the unfallen Christ Consciousness.

Through the work of many people at last year's Reshel workshop, coordinated by the innerplanes mentors, a great Eden Staff was erected that runs from Washington, DC, through the Serpent Mound, all the way to San Diego, CA. This is part of a much larger system involving the Solomon's Temple porch on the east coast, a giant equilateral triangle, and a ley running from Beijing. This etheric structure charges the Serpent Mound to fulfill its evolution-generating function.

Beginning with the Bill Brown lecture at Trinity Point on Sunday, Feb. 22nd we move into the final phase of this download preparation. Mr. Brown has been studying the Great Pyramid complex at the Giza plateau in Egypt, and feels that Trinity Point is the sacred mound upon which our universe is to be re-started. His visit there will bring Trinity Point up to full readiness to realize its destiny. In our third ceremony of the stargate activation, Trinity Point was also linked to the Serpent Mound and to Lake Titicaca on the border of Bolivia and Peru. On March 21, the spring equinox, we meet again at Trinity Point and erect a giant etheric hexagonal crystal for receiving, storing, and disseminating the light codes. We will also restrengthen the lighted pathway to Lake Titicaca and the superhighway of light to the Serpent Mound.

In May Rev. William Buehler will lead a workshop in advanced Reshel synergic group lightwork. We will be assembling in highly advanced formats designed for cutting edge light work overseen by the highest guides, ascended masters and archangels. They will decide what is to be created with the energy that we generate. Then in June at the Serpent Mound, in sacred ceremony at the summer solstice, the meaning and purpose of this Earth formation will be fulfilled in a massive download of coded light brought in through the Serpent Mound and sent to Trinity Point for distribution.

We have reserved three chalets at the Woodland Altars Heritage Lodge. There are presently 24 spaces reserved. The Woodland Altars Heritage Lodge dorms offer comfortable beds and bathroom facilities but you will need to bring: sleeping bag and pillow -- there are beds, just no sheets; towels and toiletries -- the showers are hot, just no linens.

You will have reservations for Friday and Saturday nights at the chalets.

Schedule

Saturday, June 21

2:00 PM – Meet at Serpent Mound under canopy to LEFT of parking lot.

3:00 PM – Short talk by Peter Allen. Guided meditation. Introductory remarks by Terri Sings With Ravens. Music and dancing possibly.

4:00 PM – Move to Serpent Mound. Terri will perform sacred ceremony with each participant at the head of the Serpent Mound. Your spirit will be united with that of the Serpent Mound.

6:00 PM – We become as one with the Serpent Mound. We usher in a massive download of coded light energy being passed to the Serpent Mound from our sun. This energy will have been "stepped down" a couple of times before it reaches us, to a vibratory rate that is assimilable in our dimension. It will contain the Ascension codes for the attainment of the Full-Light Metatronic Universe, the Universe of the Christ Consciousness.

8:00 PM – Sundown. Short prayer of thanks given to the Serpent Mound, the elders there in spirit, and those who came to make possible the fulfillment of the purpose of the Serpent Mound: to provide a doorway for the Solar Logos to enter this world and seed our reality with the unfallen light and love of God.
